Highlights

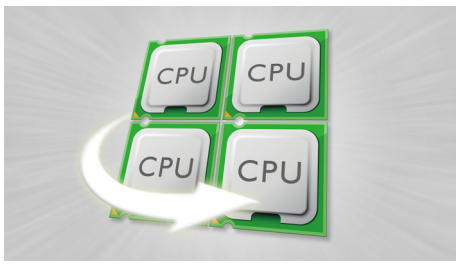
5" full HD display

Let the magnificence of the 5" full HD display on your Philips mobile phone take your breath away. With colors that spring to life and details that are clear as crystal, be blown away by the rich definition on the awesome screen. Navigating on the wide screen is just as amazing, with swift and effortless moves to get from function to feature to app. Whether you are surfing your favorite websites or viewing your latest snapshots and videos, the 5" screen gives you an unbeatable visual treat while on the go.

13 MPixel AF camera with flash

Get trigger-happy with the amazing 13 megapixel camera of your Philips mobile phone that delivers quality picture ever. Plus jazz up your images with a fantastic array of creative effects for your snapshots. With different shooting modes like automatic face retouch, makeup effects, high-dynamic-range imaging (HDR), panorama and continuous frame shooting, you're just a click away from photographic genius.

1.5GHz quad core processor



Your Philips mobile phone now zooms along like never before, thanks to the powerful 1.5GHz quad core processor. This powerhouse keeps up easily with your multitasking demands at a much faster speed. Load web pages with lightning speed, watch uninterrupted videos plus get animations fast- and we mean fast! Gaming is seamless and immersive with exceptional picture quality.

Android 4.2

Empowered by Android, your Philips mobile now comes with a fully customizable mobile platform that is open to a wide range of smart applications and functions. Find your pocket PC, games console and telephone all rolled conveniently into one.

Up to 18 hours talk time

The phone can support up to 18 hours conversation on a single charge.

Up to 9 hours web browsing

Enjoy web browsing for up to 9 hours on a single charge.

Dual mode (WCDMA and GSM)

Your Philips mobile phone incorporates two SIM cards to allow you access to WCDMA and GSM network connections at the same time. Now you can enjoy wider mobile coverage on two networks with just one phone.

Power-saving switch

This Power-saving switch may well be the most convenient feature on your Philips mobile phone. By clicking the button located on the side panel, you can enable this function to help preserve your phone battery. It will shut down the WiFi, GPS and Bluetooth functions, while dimming the screen display simultaneously. Besides avoiding the multiple clicks needed to do likewise on other phones, this clever yet convenient button is definitely a lifesaver for heavy phone users.

Fast charging

Revive your mobile phone with a quick zap thanks to this incredible feature. While conventional charging takes a few hours, fast charging means that you no longer have to fret about battery drain just before you dash out of the door for a string of important appointments. All you need is a few minutes on the plug before you tackle the day with the confidence that your phone can keep up. This potential life-changing feature could turn your life around.

32GB built-in memory

Your Philips mobile phone comes with a 32GB built-in memory so you can pack more into your life on the go. With such generous storage available for your ever expanding needs, there is more room for your favorite apps, photos and important documents. Take your data library with you everywhere you go so you have the best possible resources at your fingertips.
